

To whom it may concern:

I am a XM customer and listener, I find xm to be very valuable and it is a service that I pay for, it saddens me that anyone would try to limit what they are allowed to broadcast limiting thier right to free speech. As a paying customer we should have full access to and be able to listen to any and everything. Please reject the National association of broadcasters petition 04-160, trying to limit what xm can broadcast.

Thank you for your consideration,

Ryan Johnson
